REGULAR BUSINESS MEETING OF THE BOARD OF TRUSTEES

Chair Brennan called the meeting to order at 7:32 a.m., and the Board adjourned into executive session on an 8-0 vote for the stated purposes of—considering employment matters pursuant to ORC 121.22(G)(1), considering real estate matters pursuant to ORC 121.22(G)(2), meeting with legal counsel pursuant to 121.22(G)(3) and reviewing for collective bargaining pursuant to 121.22(G)(4) of the Revised Code. SPECIAL ACKNOWLEDGEMENTS (New Business, Tabs 1-4)

Mrs. Brennan introduced four resolutions acknowledging special accomplishments by Zips student-athletes during the spring season and asked that the group be acted upon in one vote. She said that those to be so honored were the 2012 Zips men's track and field team, 2011-12 Zips women's golf team, 2012 Zips women's tennis team and Zips men's golfer Charlie Bull.

RESOLUTIONS 6-1-12, 6-2-12, 6-3-12 and 6-4-12 (See Appendix B)

ACTION: Palmisano motion, Pavloff second, passed 7-0

Mrs. Brennan called Men's Track and Field Head Coach Dennis Mitchell and Women's Golf Head Coach Jenny King forward in turn. Each received a framed resolution and made brief remarks. Mrs. Brennan said that Women's Tennis Head Coach Brandon Padgett and Charlie Bull could not be present but would attend a future meeting to receive their resolutions.

REPORT OF THE CHAIR

Mrs. Brennan noted it was her last meeting as a Trustee. She said she has a wonderful Board and is appreciative of all that everyone has done during her term, especially the administration. She said she was delighted to have served for nine years but was sad that she would not be at the table to hear the continuation of the various efforts underway that she thinks will move the University to a much higher level.

Mrs. Brennan reminded everyone that the Board's committee structure and meeting formats have been refined and now use a consent agenda. She said that every voting Trustee could ask that any item be removed from the consent agenda and considered separately, and any items that were not on the consent agenda would be voted on immediately after those items were discussed.

REPORT OF THE PRESIDENT (See Appendix C)

REPORT OF THE STUDENT TRUSTEES

Upon review of the Board Statement of Mission, Values, and Expectations, the Student Trustees decided to create a similar but informal list of expectations for current and future Student Trustees, Ms. Duff said. A draft will be forthcoming.

Mr. Bowdler discussed his experiences interacting with students in the residence halls and said he was favorably impressed with the attention being paid to international students. He also thanked Ms. Duff for her helpfulness and wished her the best of luck.

Ms. Duff and Mr. Bowdler then introduced students Christy Wesig and Gina Voytek (See Appendix D), who offered some remarks to the Board regarding their experiences at the University. Each received a commemorative clock from Trustees.

CONSIDERATION OF MINUTES (Tab 1) presented by Chair Brennan

RESOLUTION 6-5-12 (See Appendix B)

REPORT OF THE NOMINATING COMMITTEE

Mrs. Brennan noted that the Nominating Committee's proposed slate of Board officers for 2012-2013 had been distributed to Trustees in advance and was included on the consent agenda.

RESOLUTION 6-6-12 (See Appendix B)

SPECIAL PRESENTATION

Mrs. Brennan called on Mr. Curtis, who introduced representatives from Sasaki Associates. They presented the firm's report on updating the Campus Development Guide Plan.

Mr. Woolford commented that the plan should include a possible downtown arena site, as had been discussed. It was agreed that the downtown site would be added to the presentation.

Judge Bond asked if Sasaki had come up with any idea of some kind of iconic symbol that could be incorporated into the future campus plan. Dr. Proenza noted that the idea had "not gone away" and assured Judge Bond that it would be pursued.

By consensus, the resolution accepting Sasaki's report was placed on the consent agenda.

RESOLUTION 6-7-12 (See Appendix B)

REPORT OF THE FINANCE & ADMINISTRATION COMMITTEE

presented by Committee Chair Palmisano

- Personnel Actions recommended by Dr. Proenza as amended (Tab 1)

Mr. Palmisano noted that this item would be considered separately from the consent agenda.

RESOLUTION 6-8-12 (See Appendix B)

ACTION: Palmisano motion on behalf of committee passed 7-0.

Mr. Palmisano called on Mr. Cummins to present the proposed budget for FY2012-2013. Judge Bond asked for an explanation of the transfer of \$5 million from the health plan contingency fund. Mr. Cummins said that the actual experience from the first year of self-funded health insurance showed that the contingency was over funded significantly. He said the University's health insurance plan consultants had reviewed and supported the proposed transfer. Judge Bond also asked for an explanation of suspending the planned transfer to the Budget Stabilization Fund. Mr. Cummins explained that the Budget Stabilization Fund would not be drawn down but that additional money would not be added to it in FY2013.

Mr. Palmisano asked Mr. LaGuardia to summarize action items 2-3, Mr. Cummins to summarize action items 4-7, Mr. Reilly to summarize action item 8 and Mr. Curtis to summarize action item 9, all of which would be considered on the consent agenda.

- Cumulative Gift and Grant Income Report (Tab 2)

For July 2011–April 2012, giving totaled of \$46.4 million, 74 percent more than the \$26.7 million received for July 2010–April 2011 and 48 percent more than the five-year average of \$31 million. The number of gifts increased from 18,175 for July 2010–April 2011 to 19,077 for the fiscal year to date.

RESOLUTION 6-9-12 (See Appendix B)

- Honorary Degrees (Tabs 3a & 3b)

The administration proposed awarding honorary Doctor of Humane Letters degrees to Mrs. Cornelia S. "Neal" Chima and alumnus Cornelius "C.P." Chima in recognition of their

noteworthy achievements, valued leadership and outstanding service to his community and the University. The Chimas are life-long advocates of education and major benefactors of the University.

RESOLUTIONS 6-10-12 & 6-11-12 (See Appendix B)

- Purchases for More Than \$350,000 (Tab 4)

The Department of Residence Life and Housing proposed awarding a contract to ASI Campus Laundry Solutions to provide washers and dryers for resident student use. The initial contract would be for five years with the option to renew for five additional one-year periods. ASI would invoice the University \$11.30 per student per semester for unlimited use of the equipment. In addition, ASI would provide all maintenance necessary for the term of the agreement. The total cost would fluctuate based on resident student enrollment but was estimated at \$65,386 yearly. Funding for the program would be from the individual resident building accounts administered by the Department of Residence Life and Housing.

The Department of Information Technology Services proposed an award to Oracle Corporation for \$1,640,539 for annual support and license fees for PeopleSoft, the enterprise resource software. PeopleSoft is used at the University to enable all administration functions such as financial tracking, payroll, human capital management, student registration, student financial aid, admissions and other critical functions required to run the University. The licensing fees are required by contractual agreement to use the software, and the support ensures the regulatory functions will be in place. Tax updates, student-loan regulatory, end-of-year payroll and tax processing and mandated reporting are some of the support services. The period of the maintenance support covered would be May 31, 2012 through August 4, 2013. Funding for this service would be from account number 2-00282, PeopleSoft License.

RESOLUTION 6-15-12 (See Appendix B)

- Renewal of Facilities Use Agreements for use of Real Property at Wayne College by Glenn Burkholder and Davel Farms, Inc. for the Purpose of Farming (Tab 8)

For a number of years, the University has granted permission for the external use and occupancy of certain real property located on the campus of Wayne College in Orrville.

Glenn Burkholder and Davel Farms, Inc., through separate agreements, currently use and occupy that property for the sole purpose of farming the land. The arrangement is beneficial to the University in that the property is well maintained at no cost to it. Although there is no charge to those individuals for the use of the property, each is required to provide to the University proof of general liability insurance in the amount of \$1 million and Worker's Compensation as required by state law. Wayne College has asked that it be authorized to exercise the renewal option in the current Facilities Use Agreement to renew the arrangements with Burkholder and Davel Farms, Inc. for an additional year.

Judge Bond asked if the term was for one year. Mr. Mallo said it was.

RESOLUTION 6-16-12 (See Appendix B)

- Olson Hall Roof Replacement Recommendation for Approval of Construction Contract (Tab 9)

A contract for \$475,899 was proposed to be awarded to low-bidder Cardinal Maintenance for the Olson Hall roof replacement. The project requires a complete tear off of the existing roof membrane, insulation and associated components. The new roof system would be a 60-mil thermoplastic polyolefin system with an extensive built-up “green roof.”

RESOLUTION 6-17-12 (See Appendix B)

Mr. Palmisano asked for comments from Mr. Cummins on items 10 and 11, Mr. LaGuardia on item 12, and Mr. Curtis on item 13.

- Priority Budget Issues (Tab 10) INFORMATION ONLY

Year-to-date total revenues fell short of the budget estimate by \$9.1 million, or 2.5 percent. Year-to-date total expenditures were below the budget estimate by \$5.1 million, or 1.5 percent. Year-to-date combined auxiliary revenues were \$85.9 million; combined expenditures were \$84.7 million. This actual variance of \$1.2 million differs from the \$2.9 million original projection.

The Wayne Campus year-to-date total revenues fell short of the budget estimate by \$0.7 million, or 5.4 percent; however, year-to-date expenditures are also below estimate by \$2.2 million, or 17.2 percent. The variances are attributed to enrollment being below the budget estimate.

REPORT OF THE ACADEMIC ISSUES & STUDENT SUCCESS COMMITTEE

presented by Committee Chair Bond

- Report of the Provost INFORMATION ONLY (See Appendix E)

- Presentation: Summit College INFORMATION ONLY

Provost Mike Sherman and Summit College Dean Stan Silverman presented ideas about Summit College that would strengthen its appeal to prospective students and local employers. Before any formal recommendations are presented to the Board, all proposed changes will—be discussed with faculty and staff within the college, follow the Faculty Senate governance process and involve other campus constituencies as necessary.

The following ideas were discussed:

1. Modify the name of the college to something like UA – Summit College of Technology and Applied (or Professional) Studies; and
2. Examine the benefits of upgrading the college's status to that of a branch campus.

The proposed name change would strengthen the college's identity to critical audiences, especially prospective students and local employers. A new name would better recognize the attributes of its programs, and it would differentiate the college through a better alignment with technical workforce needs. Further, a new name would emphasize the college's focus on work-sector degrees.

The proposed status change to a branch campus would carry those attributes, plus it would align the University better with the University System of Ohio's reporting structure and strengthen the University's ability to serve students who need remedial work, at a lower cost.

- Research Services and Sponsored Programs Summary of Activity Report for April 2012 (Tab 1)

BE IT FURTHER RESOLVED that the title of Chair Emeritus and an Honorary Doctor of Laws degree be awarded to her in recognition of her noteworthy achievements, selfless dedication and valuable service.

APPENDIX C: REPORT OF THE PRESIDENT

Dr. Proenza began his remarks by thanking Mrs. Brennan for her nine years of service on the Board of Trustees, during which she has demonstrated great leadership and stamina. He also extended his appreciation to Student Trustee Katie Duff for her service, noting that her demonstrated leadership on state-wide matters brought increased recognition to the University.

Dr. Proenza said he would revisit a topic that he had discussed last fall, a wave of news stories and books that were critical of higher education. He said he had offered at that time some often-unnoticed statistical information, which he thought helped put some of those issues in context.

Approximately six months have passed, he said, and it appears there is a new wave of criticism that is growing louder, and it has added several new factors to the discussion, such as whether there is even a need for higher education for all, and the issue of student indebtedness. He referred to a Wall Street Journal article published earlier in the week. It cited a study by the National Bureau of Economic Research that questioned whether federal student-aid programs support higher education or actually drive up the cost of higher education. One person in the article said that such aid is necessary for millions of Americans to access higher education, which is the purpose of that program. The other person in the story said such aid is, in reality, a burden and not a benefit for students, as evidenced by their resulting indebtedness. The study that prompted the discussion offered little guidance as to how to proceed. The Journal reported that the authors, quite simply, concluded that the results are mixed. Dr. Proenza said that, with complex issues, he thinks there always will be different sides to the question, and it is well that we examine in more detail the complexity as well as the diversity of higher education.

He said that we should debate how to fund higher education, how to contain cost and how to improve effectiveness, but he hopes we are beyond needing to question the value of higher education. There is simply too high a mountain of evidence that demonstrates the absurdity of thinking otherwise, he said. He then cited some examples.

On May 27, the Washington Post published an opinion piece by Robert J. Samuelson titled, Ditch College-for-all Policies. Ten days later, the New York Times ran a story titled, More Young Americans Out of High School Are Also Out of Work. Samuelson launched his piece with these words: “The college-for-all crusade has outlived its usefulness. Time to ditch it.”

Dr. Proenza said that there has never been such a policy, and, while he concurs with some points that Samuelson makes, there is much more to the question. Dr. Proenza disputed Samuelson’s main theme that this nation promotes college for everyone, noting that the latest OECD data puts the U.S college attainment rate for young adults at 41 percent overall. Dr. Proenza said that it is a bit mystifying to understand how there would be a college-for-all policy that accounts for less than half of the target population.

While our country debates the very value of a college degree, he said, other nations are passing us by in the production of knowledge workers. Again citing the OECD report, he said the United States has dropped from 12th to 16th place in the share of adults holding degrees, though once we were first. He asked how much further we have to fall before we realize that our priorities are out of alignment.

APPENDIX C: REPORT OF THE PRESIDENT, Page 2

Dr. Proenza said that more telling by far is the information in the New York Times article. It states quite plainly, “Whatever the sob stories about recent college graduates spinning their wheels as baristas or clerks, the situation for their less-educated peers is far worse.” The article cited a study by John J. Heldrich at the Center for Workforce Development at Rutgers University. Dr. Proenza said its findings were based on a nationally representative sample of high school graduates from the classes of 2006 through 2011. That study found that, for those students who graduated in the recessionary years from 2009 to 2011, the unemployment rate is 54 percent. The percentage of those sampled who have full-time employment is only 16 percent. The remaining respondents worked part time, were self-employed, served in the military or did volunteer work.

Dr. Proenza said that, if you want to appreciate the value of a college education, talk to someone who does not have one, or as Derek Bok, the former president of Harvard once quipped, “If you think education is expensive, try ignorance.”

Dr. Proenza said that fully 73 percent of all high school graduates sampled by the Heldrich study, those who were employed as well as those who were not, said they believe that more education is needed to find a successful career. Sadly, only half of those also suggested that they would definitely enroll for further education, he said.

So, the college-for-all notion is a myth, Dr. Proenza said. It never has existed, although it perhaps should exist in some fashion. He said that we are a long way from meeting the higher education needs of our citizens who have the ability and ambition to benefit from it. The changes in our society going into the 21st century, as we enter what people call either a “knowledge” or “conceptual” economy, are such that what many call college today is what people in the beginning of the 20th century called high school, he said. Therefore, he said, today’s college is equivalent to yesterday’s high school, and the questions that should be asked are—“How can we accomplish that better and more effectively and more cheaply?” and “What is the next generation of higher education if the equivalent of today’s college is tantamount to what yesterday was high school?”.

Dr. Proenza reported that, during the previous month, the University received a \$2.8 million gift from the estate of Howard Haberkost, who passed away last summer. The gift is intended to promote student internships through the Ray C. Bliss Institute of Applied Politics. Students can take part-time internships in Northeast Ohio while attending classes or apply for full-time experiences in Columbus or Washington, D.C. Dr. Proenza reminded Trustees that Haberkost previously had endowed an internship program in the Bliss Institute in the names of his uncle and aunt, Judge Claude Emmons, a 1921 graduate of the University, and his wife, Thelma.

Dr. Proenza also reported that The University of Akron was one of only two Ohio universities to receive a prestigious national professional development grant from the U.S. Department of Education in May. The College of Education, together with the Buchtel College of Arts and Sciences, received a five-year grant for almost \$2 million, with the funds intended to improve the quality of instruction for K-12 English language learners. The University is partnering with six school systems, including Akron, Cleveland and Youngstown, for this grant, he said.

APPENDIX C: REPORT OF THE PRESIDENT, Page 3

Dr. Proenza said that, as part of the UArts Initiative, students, alumni, faculty and staff are being encouraged to participate in a number of cultural events downtown. The Summer in the City program runs through early September and includes concerts at Lock 3, street festivals and exhibitions at the Akron Art Museum. Members of the campus community can attend most events for free by presenting their Zip Cards. Dr. Proenza said UArts is a component of the Cultural Passport initiative as well as Vision 2020 goals of partnerships with the community and for community enhancement and engagement. Dr. Proenza thanked Candace Campbell Jackson and her colleagues for moving that effort forward successfully.

After thanking Trustees for recognizing the University's athletics teams, Dr. Proenza said he wanted to report on some other team successes:

- The University of Akron Steel Bridge team placed fifth out of 46 in the 2012 American Society of Civil Engineers/American Institute of Steel Construction Steel Bridge Competition at Clemson University in South Carolina. The other teams in the top five represented the University of California Berkeley, Massachusetts Institute of Technology, Cal Poly San Luis Obispo and Michigan Technical University. He said our young men and women demonstrated that University of Akron students can compete with anyone in the world. Dr. Proenza congratulated them and their faculty adviser, Dr. Stephen Duirk, assistant professor of civil engineering.
- Vice President Ted Curtis received a special award from the Summit County Sheriff's Office at its annual awards and recognition dinner on May 18. Civilian as well as law enforcement personnel were honored, and Curtis was presented with a bronze eagle in recognition of his "support of programs of the Summit County Sheriff's Office and... efforts to strengthen collaborations with The University of Akron."

Dr. Proenza said that Curtis probably is prouder of something that he personally did not do. On May 5, the Brophy College Preparatory School in Phoenix clinched the Arizona State Division I boys' team tennis championship when Ted's grandson, Alex Curtis, defeated an opponent in three sets.

APPENDIX D: FEATURED STUDENTS' BIOGRAPHICAL SKETCHES

CHRISTY WESIG

Christy Wesig is the first in her family to graduate from high school, the mother of eight children ranging in age from 4 to 21 years and a native Californian who even spent a year in Alaska.

Christy attended college part time while home-schooling her young children. She received her associate degree with honors in 2003 after attending U.C. Berkeley and Diablo Valley College. In 2004, she moved to Ohio and began attending The University of Akron while working for Kaiser Permanente.

She earned a bachelor's degree in English, summa cum laude, in 2009 and entered The University of Akron School of Law. While studying law, she worked:

- as a student research assistant to Elizabeth Reilly;
- as an intern for Chief Judge for the Sixth Circuit Court of Appeals Alice Batchelder; and,
- as a law clerk for two firms, simultaneously.

In addition to participating in numerous programs and activities, Christy served as the Articles and Symposium Editor of the Akron Law Review. Her law review article was published in Akron Law Review journal volume 45.1 and, subsequently, in Ohio Trial Journal.

Christy received the Outstanding Student Award for Community Service and Academic Excellence, and a Cali Award. She graduated in May, finishing fourth in her class.

GINA VOYTEK

While working at KeyBank National Association for 12 years, Gina Voytek discovered her passion for helping people. In addition to her regular job responsibilities, Gina served as—a liaison to internal and external auditors, a project manager, and an employee-development advocate – bringing together people and resources. Now, she continues on that path, bolstering her previous experiences with counseling education and training that culminated in her receiving a master's degree in school counseling from The University of Akron last month.

Gina works as an independent consultant on sustainability reviews and process-improvement projects for various private clients. She is a member of the American School Counseling Association and the National Career Development Association.

Gina hopes to pursue a Ph.D. in Industrial-Organizational Psychology and is considering one of three University of Akron certificate programs in the near future.

She and her husband currently reside in Seven Hills.

APPENDIX E: REPORT OF THE PROVOST

Dr. Sherman reported that the University's leadership agenda for the next year is focused on achieving the Aspirational Goals of Vision 2020. He said that, to be effective change agents for this region, we have to be nimble and forward thinking.

He said that evening and weekend programs are a significant opportunity to grow our adult-student population. As the number of graduating high school students dwindles, we have a great opportunity to better serve the adult market, he said, and a strong foundation is in place to do just that:

- The Bernard Osher Scholarship fund of \$1 million, in combination with other scholarships, increases the funding opportunities for that population.
- Our Adult Focus Center provides specialized support, from advising and study skills to family-friendly opportunities, and a dedicated computer lab and study lounge.
- The Military Services Center is widely recognized for its comprehensive support for our student-veterans. Our student-veteran cohorts grew from 760 in fall 2010 to 900 in fall 2011, with an expected increase again this coming fall.

Dr. Sherman noted several University programs that can be completed by taking only evening and/or weekend courses:

- Accounting, Finance and Management baccalaureate degrees in the College of Business Administration;
- RN-to-BSN program in Nursing;
- BA and BASW degrees in Social Work;
- All coursework for licensing majors in Education and the completion of BS and MS in Postsecondary Technical Education; and
- Associate of Arts and Associate of Science degrees at the Wayne campus.

Dr. Sherman said there are approximately 4,000 students in those programs, which are offered at different times of the day and days of the week. He added that an evaluation is underway for a possible Saturday school to help remedial students get the help they need to stay on track and persist at the University. He also pointed out that all general education requirements are available in evenings and on weekends.

Dr. Sherman said that eLearning continues to be an important component of the University's strategy. The College of Education has been a leader in this area, with both its bachelor's and master's programs in Postsecondary Technical Education already being offered online. He said that the University will vigorously pursue a strategy that positions it in that market with distinctive academic programs, certifications and licenses.

Dr. Sherman said that accountability for student success is the foundation of the University's enrollment strategy. This year, he said, we have set the stage for academic success through our Pathways strategy, and there are indications that it is working:

- The average ACT score for the fall 2012 incoming class is 22.1, up from 20.9 in 2011 and the highest ACT score for an incoming class.
- New college-ready student credit hours are up 4 percent.

APPENDIX E: REPORT OF THE PROVOST, Page 2

- New adult student credit hours are up 54 percent.
- New transfer student credit hours are up 19 percent.

While we are planning for flat enrollment, Dr. Sherman said, our intention is to beat those projections with the help of our faculty, staff and alumni. He said that we all will and must work to increase our enrollment, which is a responsibility of each and every one of us. Dr. Sherman said that he looks forward to working with Vice Presidents Fey and Tressel to assure the success of our enrollment and persistence strategies by implementing the distinctive and distinguishing Akron Experience.

Dr. Sherman reported that the call for proposals for the inaugural Achieving Distinction strategic investment programs closed on May 18. There were 26 proposals submitted from the faculty in the four areas of strategic investment: Human Condition, Innovative Technologies, Health Care and Medicine, and Regional Solutions. He said that faculty from each college and most all academic programs participated in that submission, and it clearly will be very hard to make decisions about funding those proposals. He said he expects to announce those outcomes in late summer.

Dr. Sherman said that we have challenges and opportunities ahead, but the academic units and academic support units will continue to work together and place a priority on student success and institutional effectiveness. He said that we will stay the course and will succeed in ensuring and enhancing productivity, relevance, connectivity to the community and the reputation of The University of Akron.

THE UNIVERSITY OF AKRON

BE IT RESOLVED, that the minutes of the Board of Trustees meeting of June 13, 2012, be approved.

Ted A. Mallo
Secretary
Board of Trustees

August 8, 2012

oversight was discovered, Board officers were notified and agreed to the administrations' proposal that all proposed FY2013 miscellaneous fees be implemented, pending ratification of the omitted changes at the July 30 and August 8 committee and Board meetings.

4 Purchases for More Than \$350,000

The Department of Auxiliary Enterprises is proposing the award of a contract to Micros Systems, Incorporated to provide a new point of sale system for use on campus at all Auxiliary Enterprises' retail locations. The initial contract will be for the purchase, installation, and training on the new software and register terminals.

A point of sale system is comprised of both computer hardware and software that records a sale on a real-time basis and is vital to effective recordkeeping. It is imperative for the Department of Auxiliary Enterprise to have state of the art technology to stay current in our retail, hospitality, and other business transactions. This new point of sale system will give a new level of control to our business units by increasing efficiency and therefore productivity. This system can be used by all departments such as Surplus Property, Parking Services, and other cash operations.

The proposal submitted by Micros Systems, Incorporated was determined to be the lowest responsive and responsible proposal. The initial purchase of hardware, software, and training will be approximately \$449,598, although the actual total cost will depend on the number of units installed and the number of training days needed which may change slightly during the implementation process. The total cost is not expected to exceed \$500,000.

5 Purchases for April 2012 between \$25,000 and \$350,000 (information only)

For May, 22 purchases in this category totaled \$1,100,165.80.

For June, 8 purchases in this category totaled \$779,648.08.

The immediate supervisor and second level supervisor are required to review and approve the information submitted on the PDAQ. Once the PDAQ is approved, it is submitted to the Classification Unit in Talent Development & Human Resources. The Classification Unit will review the PDAQ and determine if the position is appropriately classified or not. If the Classification Unit determines that the position is not classified correctly, it will provide a recommendation to change the classification. The recommendation will be reviewed and approved by the employee's management up to and including the appropriate Vice President. The approved recommendation will then be submitted to the University's Board of Trustees for approval.

Offline increases may also be recommended as a result of a reorganization involving a change in responsibilities.

SUBJECT: Ratification of Miscellaneous Fees

At its meeting on June 13, 2012, the University's Board of Trustees approved 35 pages of proposed changes in course and miscellaneous fees. A later review of materials showed that an additional seven pages of proposed fees changes were omitted inadvertently from Board and committee materials. Those materials are summarized below.

Academic/Student Services:

- Engineering Infrastructure Fee, all courses - increase from \$15 to \$20 per credit hour
- Saturday MBA Program at MCUC and Lakewood UC-establishing price for new cohort
- MBA Program at MCUC and Wayne and MTax Program-elimination of single-course offering and associated fee
- International Executive MBA Program-elimination of offerings and associated fees
- Late Application for Graduation-elimination of fee

Facilities:

- Schrank Fields and InfoCision Stadium Rental Fees-increases to four fees
- Lee R. Jackson Baseball Field Rental-decreases to fees
- Lakewood UC Facility Rental-establishing prices for five new rental spaces

Services:

- AHAP fees for media usage and copying-mix of changes to existing fees and establishing fees for new services
- Center for Child Development- increases to nine fees
- Dance Institute-increases in 26 fees and elimination of three fees

As soon as the oversight was discovered, Board officers were notified and agreed to the administrations' proposal that all proposed FY2013 miscellaneous fees be implemented, pending ratification of the omitted changes at the July 30 and August 8 committee and Board meetings.

Miscellaneous Fees for FY2013

BE IT RESOLVED, that the recommendations of the Finance and Administration Committee on August 8, 2012, be approved, thus ratifying the implementation of specific miscellaneous fee changes for FY2013.

Board of Trustees

TO: Dr. Mike Sherman
Senior Vice President, Provost and Chief Operating Officer

FROM: David J. Cummins 
Vice President for Finance & Administration/CFO

SUBJECT: Board Item for Approval

The following purchase for more than \$350,000 is recommended for approval by the Board of Trustees at its meeting on August 8, 2012.

1. **Point of Sale System:** The Department of Auxiliary Enterprises is proposing the award of a contract to Micros Systems, Incorporated to provide a new point of sale system for use on campus at all Auxiliary Enterprises' retail locations. The initial contract will be for the purchase, installation, and training on the new software and register terminals.

In 2011, the Department of Auxiliary Enterprises was notified by Blackboard, the company that supports our existing ZipCard system that as of August 2014 the current POS and transaction system will be considered antiquated and will no longer be supported. Auxiliary Enterprises decided that The University of Akron should pursue a new point of sale system because both the ZipCard system and the point of sale system work together to support the campus retail operations.

A point of sale system is comprised of both computer hardware and software that records a sale on a real-time basis and is vital to effective recordkeeping. It is imperative for the Department of Auxiliary Enterprise to have state of the art technology to stay current in our retail, hospitality, and other business transactions. This new point of sale system will give a new level of control to our business units by increasing efficiency and therefore productivity. This system can be used by all departments such as Surplus Property, Parking Services, and other cash operations.

A point of sale system review committee was formed with representatives from Auxiliary Enterprises, Information Technology Services, and Purchasing. Due to the complex nature of this project, this committee visited Summa Health Systems and The Ohio State University to view their point of sale systems. An RFP was then prepared using information gathered during these site visits. At bid closing, a total of six vendors submitted proposals. The first assessment method used was in determining compatibility

with other current University operation systems. Only four of the six vendors qualified to continue on in the process. Onsite presentations were conducted by each of the remaining four respondents.

The proposal submitted by Micros Systems, Incorporated was determined to be the lowest responsive and responsible proposal. The initial purchase of hardware, software, and training will be approximately \$449,598, although the actual total cost will depend on the number of units installed and the number of training days needed which may change slightly during the implementation process. The total cost is not expected to exceed \$500,000.

This system, as supplied by Micros Systems, Incorporated is acceptable to the department of Auxiliary Enterprises, the Department of Purchasing, and the Office of General Counsel.

I recommend that an award be made to Micros Systems, Incorporated for a total not to exceed an amount of \$500,000 and request your approval and that of the Board of Trustees at its meeting on August 8, 2012.

BE IT RESOLVED, that the recommendations of the Finance and Administration Committee on August 8, 2012, be approved:

STUDENT SUCCESS	Commitment to Excellence
<ul style="list-style-type: none"> Data Warehouse/Business Intelligence 	<p>Training of the functional users took place the week of June 25. About 20 subject-matter experts from various representative departments were trained on the new reporting tool and the structure of the data warehouse.</p> <p>Phase one report development is complete and user acceptance testing is currently taking place. The production system is being built starting the week of July 30. The transition to production is on target for August 3.</p> <p>Phase two requirements and fit gap analysis has begun and is expected to be completed by August 31.</p>
GLOBAL RELEVANCE	Develop Dynamic and Globally Relevant Programs
<ul style="list-style-type: none"> Shared Service: Supporting PeopleSoft at LCCC 	<p>UA hosts and supports PeopleSoft for LCCC (Lorain County Community College) application environment including Campus Solutions, Financials, Human Capital Management, and application development tools.</p> <ul style="list-style-type: none"> QAS: The product was installed into LCCC’s test environment. Training was provided remotely to LCCC over the Internet. Plans are being made to put the product into production next month. HELP DESK: Work is underway to determine how the like business processes at both schools can be combined and organized. A service level agreement document is being developed to document the services of the combined business unit.

- Shared Service: Innovation Alliance

The Innovation Alliance partnership between LCCC, Stark State College, and UA is studying shared services as a way of controlling the costs of administrative services. The partnership is intended to accelerate educational efficiency, knowledge creation, and economic development within an area called the Innovation Corridor.

To complete the study, a Project Team was created from the directors of HR, Payroll, and Benefits at each school. A Steering Committee was formed from senior management over those areas from each school. ScottMadden and Associates, a firm specializing in shared services for public sector and higher education, was hired to lead the study. The study is being funded by the Lumina Foundation through the Ohio Board of Regents.

The project to assess a high level business case for combining payroll business units between the schools is continuing. Data was provided by each school detailing the activities of payroll data. The information was combined, summarized, and presented to the Steering Committee to show the current state of payroll at both institutions.

Further input was provided by participants from Payroll, HR, and Benefits on the high level operation and organization if the Payroll Office from both schools were combined into a single business unit. A future state design was created and presented to the Steering Committee.

Finally, a business case was developed based on the current state of operations and the future state design. It will be presented to the Steering Committee on July 16. Members of the Steering Committee will report back to the Innovation Alliance on the study status on July 30.

DISTINCTION

Facilitate Faculty Development and Success by Expanding Clusters of Interdisciplinary Teaching and Research

- Online (eLearning) Learning

The evaluation of the Pearson model has been concluded and the results have been presented to the Provost Office. An eLearning Strategy and Implementation Committee and an eLearning governance process have been established. (possibly add more data after Jim meets with Rex)

ENGAGEMENT	Build and Sustain Vital Relationships and Partnerships
<ul style="list-style-type: none"> Governance and Project Management 	<p>An outside organization has been engaged to review the Project Management Office’s (PMO) methodology and tools. This review will provide an outline of the current state of the methodology and make recommendations for improvements to the process and tools. This review and its recommendations are expected by September 2012.</p>
<ul style="list-style-type: none"> Digital Signage 	<p>As of this writing, 74 screens are planned for the new digital signage system, which includes several screens already in place and managed by Auxiliary Services. The plan is for Auxiliary Services to transition from their old provider (Ronin) to the University's new Four Winds Interactive (FWi) system.</p> <p>Screens using the FWi software are located in areas operated by Residence Life & Housing, Law School, Student Union, College of Arts & Sciences, Auxiliary Services, and the Library. These new installations are at various stages, but the project is still on target to have most screens in place and operating during the fall semester.</p> <p>These screens will display static content. The messaging will be primarily maintained by each location and be appropriate to their operations. However, the plan is to also provide University-wide messaging as well.</p> <p>Several of the new screens are equipped with touchscreen interactive capability. Our plan is to develop touchscreen wayfinding once the static displays are up and running. We are also exploring the possibility of implementing outdoor wayfinding for two locations: the information kiosk outside of the Student Union and the information kiosk in Buchtel Commons, just outside of Zook. We are examining the hardware and security requirements that will allow us to install screens in these locations.</p>

COMMUNITY	Promote Vibrant and Engaging Environments and Facilities
<ul style="list-style-type: none"> Police Dispatch – 911 Merger 	<p>The University of Akron Police Department continues its pursuit to partner with the City of Akron Police Department to share the City's Computer-Aided Dispatch and Records Management System to track and document public safety incidents.</p> <p>A draft of the service level agreements is being finalized and will be completed within the next two months. This initial agreement will be for a three-year period with go live activities to the shared system expected to occur in May, 2013.</p>

<ul style="list-style-type: none"> Software-as-a-Service (SaaS) Investigation for Human Capital Management 	<p>Work continues on determining whether to move forward with Oracle’s Fusion Human Capital Management (HCM) application as an upgrade to the existing PeopleSoft HCM. The product is a Software-as-a-Service (SaaS) application built to provide an application developed around business processing that is simpler, standardized, and more automated than the existing PeopleSoft HCM.</p> <p>Further discussions have been held with Oracle to provide a clearer understanding of where the Fusion application is in its development cycle for higher education and what steps are necessary to become an early adopter. Oracle has planned several meetings with senior management to answer further questions about meeting their individual needs.</p>
<ul style="list-style-type: none"> Contributor Relations 	<p>Four vendors responded to the University’s RFP seeking information and pricing on a possible solution to replace PeopleSoft Contributor Relations. Each vendor spent a full day presenting their product and answering the script prepared by the UA assessment team. Based on the RFP responses and vendor presentations, the assessment team determined that Blackbaud was clearly the product of preference because of the breadth of functionality, benefit their solution is capable of providing, and the strategic vision for where they are taking the application.</p> <p>The assessment team is currently gathering data to develop the business case based on the selection of Blackbaud. Once the business case has been completed, the recommendation will be passed to senior management for determining funding requirements. Contracts will be passed to Legal Counsel for their review.</p>
<p>INTEGRATED PLANNING</p>	<p>Achieve Measurable Success</p>
<ul style="list-style-type: none"> Grants Management Post-award 	<p>The Grants Post-award project was placed on hold until July 1 due to budget constraints and is now being restarted. Post-award is used to track awards, facilities and administration processing, and produce financial reports.</p>
<ul style="list-style-type: none"> ITS Metrics 	<p>The ITS scorecard has been eliminated from this report. We are re-evaluating the dashboard of IT services and attempting to identify which measures will be most meaningful to the Board.</p> <p>ITS plans to resume providing a "Scorecard" in the future.</p>

The Division of
Student Engagement
and **Success**

**Report to
The University of Akron Board of Trustees
August 8, 2012**

The Division of Student Engagement and Success

The Division of Student Engagement and Success (SEAS) is dedicated to student success both inside and outside of the classroom. This division plays a unique role in that regard. We offer co- and extra-curricular programs, services and activities that extend students' opportunities to learn, grow and develop in all aspects of their lives.

The division is made up of the following 12 departments,

Academic Achievement Programs
Career Center
Counseling Center
Dean of Students
Health Services
Off-Campus Student Services

Office of Accessibility
Office of International Programs
Residence Life & Housing
Student Judicial Affairs
Student Union and Student Activities
Student Recreation & Wellness Services

We will focus on at least two critical areas from among these departments to highlight in each report. Each critical area also is aligned with Vision 2020 and will be essential to The Akron Experience. The following areas are competency areas which will be showcased throughout the year:

- Diversity and Inclusive Excellence
- Student Personal Effectiveness and Success
- Student Engagement
- Professional Scholarship
- Career Readiness
- Critical and Creative Thinking
- Assessment

We submit this report highlighting:

- *Off-Campus Student Services*
- *Academic Achievement Programs*

Off-Campus Student Services

The Off-Campus Student Services staff is committed to helping off-campus students identify available resources and to providing services that foster successful college experiences. Through education, creative programming opportunities and meaningful student interventions, we enhance students' experiences and success culminating in graduation. We advocate for commuter and off-campus students and value their contributions to the University. This office was established in the spring of 2010 following a recommendation from the Putnam Group, a consultant charged by the President and Vice President for Student Affairs to examine the need and program cost for such services. The office was created through the reallocation of existing positions and resources within the division of student affairs and with a small amount of new funding being provided by the university. This office already has received national recognition in its very brief history, being named as a NASPA Excellence Award Silver Honoree at the national convention of the National Association of Student Personnel Administrators in 2011. In this report we will highlight some specific and notable programming efforts;

Community Ambassadors

The Community Ambassador program was created in fall 2011. Similar to the role of residence hall resident assistants, Community Ambassadors reach out to and connect with off-campus students to better engage students in programming efforts, to ensure commuter students know and utilize university resources and to become resident members of their.

- Students who participate in Community Ambassador program will become more connected to their community.
 - Throughout the academic year the Community Ambassadors held programs at their residences, in groups or in the Student Union Commuter Lounge adjacent to the Off-Campus Student Services office.
 - Examples of programs for UA students are:
 - *Keep Akron Beautiful* “Clean Up Akron - Super Saturday.”
 - 22 Exchange’s Cupcake Eating Contest
 - UA intramural teams
 - Community cook-outs
 - Make Your Own Sugar Cookie - finals week study break
 - Leggett Community Learning Center Egg Hunt

Greet on the Streets

OCSS staff, student assistants and University of Akron Police hosted three “Greet on the Streets” at the beginning of the fall 2011 semester.

- The purpose of this friendly neighborhood event was to educate students and community members about the resources available at the Off-Campus Student Services office.
 - Students and landlords were given a scoop of ice cream and a copy of our newsletter, *The Scoop*.

Trunk-or-Treat

On October 27, 32 university departments and student organizations distributed candy to the students and siblings of Leggett Community Learning Center.

- The goal of this program is to foster participants' awareness of the underprivileged families and children in this neighborhood and to inspire participants to become involved in activities that build relationships with these children and families.
 - One of the highlights of this event was the many student group members and athletes who dressed up in costume, and then interacted with the children while passing out treats.
 - According to the Leggett principal, the parents who attended the event were thankful for our continued support of the school and their children.

Adolph Street Community Garden

Eleven members of The University of Akron community, including Todd Shaver, assistant director of Off-Campus Student Services, contributed 44 service hours on May 19 to start the Adolph Street Community Garden.

- Students and residents participating in the program will learn more about general gardening techniques, e.g., composting, organic pest control and raised garden planning from a master gardener from the Ohio Extension Agency who meets with participants every two weeks.
 - Students and community residents work side-by-side building community relationships and learning about home gardening. Several of the student participants have commented that they never knew how vegetables appeared when growing in a garden as compared to their local supermarket.

Off-campus Student Services is committed to serving the needs of our off-campus students by assisting with their housing needs and both curricular engagement and outreach and partnerships. Through the many efforts of the staff, the office assists students, who live off-campus or plan to live off-campus, to locate housing, find roommates, and answer important educational questions related to off-campus living.

Academic Achievement Programs

Academic Achievement Programs (AAP) celebrated 25 years of TRiO programs hosted by The University of Akron starting June 1, 2012, AAP is responsible for three federal TRiO grant funded programs. Each program enables participants from middle school through high school to access academic skill building, cultural and financial preparation along with college application assistance to enhance participant success in higher education. **Upward Bound (1987) Educational Talent Search (1990) and Upward Bound Math and Science (1991)** along with **Strive Toward Excellence Program (1988)** which is funded by a generous endowment from Bridgestone/Firestone, and the University supported **Pre-Engineering program (1987)** annually serve more than 1200 students from Akron in grades six through 12 and approximately 30 adults.

Each grant funded program has specific objectives that are approved and monitored by the U.S. Department of Education. Annual Performance Reporting assesses the outcome of each performance objective based upon the intervention strategies implemented by AAP. These objectives are related to:

- recruitment and retention of participants in the individual programs
- grade promotion of participants
- percentage attaining the annual minimum GPA
- percentage reaching proficiency in state mandated testing
- percentage attaining high school graduation
- percentage of successful college enrollment by specified time line
- percentage retained in college
- percentage attaining college graduation

Educational Talent Search (ETS)

In the national competition for grant dollars, AAP was awarded a five-year grant (\$2,221,140) through Talent Search to serve 972 participants from grades six through 12 (including 30 adults who are high school drop-outs or college stop-outs). Two-thirds of the total participants must be both low income and first generation; no specific criteria are mandated for the remaining participants. Table I shows the success rates of participants served. This reporting period extends beyond the last year of the previous five-year grant and includes the first year of the new grant.

Table I: Success Rates of Participants Served

Strive Toward Excellence Program (STEP)

STEP provides excellent academic year and summer enrichment programs to 40 middle-school students annually. Summer classes include math, reading, composition, dance, martial arts, swimming and ethics. Academic year mandatory parent and student monthly workshops included sessions such as “Cyber Bullying” Relationship Building and Character Development. STEP participants volunteer to clean up Metro Parks, make beds at Haven of Rest, and bell ringing for the Salvation Army. STEP provides the intentionality of exposure to experiences that participant families would not have the opportunity to make available. The 2011 annual trip included:

- Swimming with Dolphins at Discovery Cove
- Dinner and jousting at Medieval Times
- Leadership training session at Walt Disney World in Orlando, Florida

Retention rates from the STEP middle-school component have remained at 96 percent for four years. Table II indicates the ethnic and gender diversity of the middle school component.

Table II: Ethnic and Gender Diversity in Middle School

Race /Ethnicity	Percent
African American	72%
Caucasian	19%
Asian	7%
Hispanic	2%
Gender	Percent
Female	56%
Male	44%

The five year graduation rate for undergraduates is 50 percent. Scholarship awards for 2011-2012 totaled \$104,772. Table III includes ethnic and gender diversity along with academic success at the undergraduate level.

Upward Bound Classic (UB)

In national competition for Upward Bound, AAP was awarded a five-year grant (\$2,405,790) to serve 107 participants from five target Akron Public High Schools. One-third of the total participants may be either low income or first generation; two-thirds must meet both criteria.

Upward Bound met or exceeded all grant objectives for 2011 (except for 60 percent continued college enrollment for the third semester) and earned a perfect score for two new mandated competitive priorities.

Objectives remain the same for the duration of the grant. Table IV indicates the success rate of participants in the Upward Bound Program during the grant period. The new grant began June 1, 2012.

Table IV: Success Rate of Participants in UBP

Upward Bound Objectives					
Year	High School Graduation Rate	Completed Applications FAFSA and College Acceptance	College Enrollment	Average ACT	College Retention
2012	99%	100%	Pending	19.7	Pending
2011	100%	100%	85%	19	Pending (3 rd semester)

Upward Bound Math and Science (UBMS)

Upward Bound Math and Science national competition proposals were due July 20, 2012. With new criteria, the program will increase its participants from 58 to 67 continuing its unique polymer science focus. The grant proposal has requested a budget of \$297,034 annually for five years.

UBMS exceeded all grant objectives which is beneficial in the national competition. Table V indicates the success rate of participants during the grant period.

Table V: Success Rate of Participants

UBMS Objectives					
Year	High School Graduation Rate	Completed Applications FAFSA and College Acceptance	College Enrollment	Average ACT	College Retention
2012	100%	99%	Pending	21	Pending
2011	100%	100%	90%	21.4	Pending (3 rd semester)
