

THE EVOLUTION OF BEAKs

EDCI 480:001 OR BIOL 495:004 |
M 12:55 - 3:25

DR. LARA ROKETENETZ

DR. GARY HOLLIDAY

Students will create biomimicry exploration activity kits (BEAKs) focused on plant & animal adaptations that can be used to solve human problems to effectively communicate difficult science topics & create a curriculum that will be offered as an after-school/evening program to teens & adults. [Un]classes fulfill Honors Colloquia Requirement.
