

COURT JUSTICE: HOW SPORT CHANGES OUR WORLD VIEWS

EXER 480-002
T&TH 3:30 - 4:45 PM

**DR. MELISSA DREISBACH
& DR. HEATHER POLLOCK**

Sports heroes have the ability to capture our attention. We love them or hate them, intensely; we feel as if we know them intimately. They carry our hopes and dreams on their backs...to the field, the pitch, the court...and beyond. This course takes a look at how our investment in athletes shapes our views of justice. When they stand up (or take a knee) we notice. Students will work in groups to create an informational poster drawing focus to a movement or influential individual and will distribute their creations at local sporting events.
