GENERAL INFORMATION.

BUCHTEL COLLEGE was founded by the Ohio Universalist Convention in 1870, and took its name from its most generous benefactor, Hon. John R. Buchtel, who has consecrated his life and wealth to its support and welfare. It was chartered by the Ohio Legislature in the same year as a College of Liberal Arts and Letters, and is designed to secure the highest grade of Classical, Scientific and Literary culture known to American Colleges.

COLLEGIATE DEPARTMENT.

For this purpose its curriculum embraces:

First: A Classical Course.

Second: A Scientific Course.

Third: A Philosophical Course.

These courses are each four years, and are equal to the best standards adopted by the leading institutions of the country.

PREPARATORY DEPARTMENT.

In connection with the College proper, the Trustees have established a Preparatory School, in which students are thoroughly fitted for the college classes.

NORMAL WORK.

Students designing to teach will receive special instruction in the *Theory and Practice of Teaching*, from thorough and experienced teachers.

CO-EDUCATION.

The college is open alike to students of both sexes, and all are admitted to equal privileges and honors.

The results achieved in Buchtel College testify to the ability of young ladies to compete successfully with young gentlemen for the prizes of thorough scholarship. Some of the best mathematicians graduated have been young ladies. The influences exerted by the sexes upon each other have been mutually beneficial.

RELIGION.

While the College is under the auspices of a religious denomination, there are no restrictions imposed upon the exercise of religious opinions.

Students are required to attend whatever church their parents or guardians may elect. Akron is well supplied with churches of nearly all denominations, both Protestant and Catholic. While the college aims to be religious it is, in its internal economy, in no sense sectarian.

Religious opinions are respected but not taught.

All students are required to attend morning prayers and the reading of the Scriptures in the chapel.

MUSIC.

Superior advantages are afforded for the study of Music, both instrumental and vocal. Special attention is given to *voice building*. For instrumental instruction the student may select organ, piano or guitar.

GOVERNMENT.

The policy of the College is to induce self-government, so far as this is possible. It is desired that student-life shall be as much like home-life as the interests of the student will permit, and yet we would emphasize the fact that while a student is in College, he

is there for study, not merely for sociability. Students' socials are permitted at stated times in the college building, at which all are desired to be present.

LITERARY SOCIETIES.

There are two Literary Societies in the College, under the direction and control of the students, and a most commendable interest is maintained in the literary work. The Bryant Society is composed of the gentlemen students in regular college classes, while the Carey Society is conducted by the young ladies.

Each society is provided with an elegant and commodious hall in the College, and meetings are held by each every week, on Friday evening.

APPARATUS AND CABINET.

The College is provided with excellent Philosophical and Chemical Apparatus of the latest and most approved kind. It has a Laboratory open to students, well furnished with appliances for making chemical experiments and analyses.

NATURAL HISTORY ROOM.

This is one of the most attractive features of the college building. The specimens are unique and many of them rare. Much taste has been displayed in the arrangement, while the classification is accurate.

BOARDING ACCOMMODATIONS.

The college building affords ample accommodations for boarding one hundred and fifty students. There are eighty rooms in the building that can be used for students' purposes. The rooms are heated by steam and lighted by gas. The East Hall, above the

first floor is devoted exclusively to the young gentlemen, while the West Hall is occupied exclusively by young ladies. The Dining Hall will accommodate two hundred students.

It is desirable that young ladies especially, shall board and room in the college building. They are more "at home" in the building, and besides they are more thoroughly protected from inclement days in winter and spring.

LOCATION.

The city of Akron, located as it is, in the midst of hills and valleys, is one of the most picturesque cities in the country. It has a population of 20,000; is public spirited, enterprising, intelligent and orderly. From the first, Akron has evinced its interest in the College by bestowing a generous patronage. It is a healthy city, and easy of access. It is located on the line of the Atlantic & Great Western, and the Cleveland, Mt. Vernon & Columbus railroads, and has direct connection with any and all parts of the country.

The college building occupies the highest point of land in the State of Ohio, and from its summit, commands a view unsurpassed in extent and beauty.

As a home for students, Akron combines in an exceptional measure, rare facilities for the accomplishment of the educational design.

RECORD OF MERIT.

A record is kept of each student's standing in recitation and deportment, and of all absences and irregularities. An average of each term is made at its close, which may be examined by committees, trustees, parents and friends of the College.

COLLEGIATE COURSES.

THREE COURSES OF STUDY.

To afford an extensive field for the choice of studies, three regular courses are provided, each four years, with three years of preparatory work. These are:

I. The Classical Course, with the Degree of Bachelor of Arts, for graduation.

II. The Philosophical Course, with the Degree of Bachelor of Philosophy.

III. The Scientific Course, with the Degree of Bachelor of Science.

I. THE CLASSICAL COURSE

offers the usual amount of study in Ancient and Modern Languages, Comparative Philology, Mathematics, Natural Sciences, English Literature, Rhetoric, Logic, Mental and Moral Philosophy, Political Science, etc., as pursued in the leading American colleges.

TERMS OF ADMISSION.

Candidates for the Freshman Class, in the Classical Course, will be required to pass a satisfactory examination in the following branches:

GREEK.—Grammar, including Prosody, (Goodwin or Hadley); three books of the Anabasis; two books of Homer's Iliad; Prose Composition, as found on the first one hundred and fifty pages of White's Greek Lessons.

LATIN.—Grammar, including Prosody, (Harkness' or Allen & Greenough); three books of Cæsar's Commentaries; four of Cicero's Orations; five books of Virgil's Æneid; the first twenty lessons of Allen & Greenough's Latin Prose Composition.

MATHEMATICS.—Arithmetic, Olney's University Algebra to Part III; four books of Geometry.

ENGLISH.—Geography, General History, Grammar, Orthography.

II. THE PHILOSOPHICAL COURSE

affords the opportunity for the study of Latin, Mathematics, Natural Science, English Literature, German, French, Mental and Moral Philosophy, Political Science, etc.

TERMS OF ADMISSION.

LATIN.—Grammar, including Prosody, (Harkness or Greenough); three books of Cæsar's Commentaries; four of Cicero's Orations; five books of Virgil's Æneid; the first twenty lessons of Allen & Greenough's Latin Prose Composition.

MATHEMATICS.—Arithmetic, Olney's University Algebra to Part III; four books of Geometry.

ENGLISH.—Orthography, Grammar, General History, Book-keeping, History of United States, Geography, Physical Geography.

III. THE SCIENTIFIC COURSE

affords an opportunity for the study of Mathematics, German, French, Natural Science, Political Science, Mental and Moral Philosophy, Engineering, English Literature, etc.

TERMS OF ADMISSION.

All candidates for admission to the Freshman Class of the Scientific Course, will be required to pass a satisfactory examination, in the following branches:

NATURAL SCIENCE.—Physiology, Natural Philosophy, Physical Geography.

MATHEMATICS.—Arithmetic, Olney's University Algebra to Part III; four books of Geometry; Free Hand Drawing.

ENGLISH.—Grammar, Orthography, Geography, History of United States, Book-keeping, General History.

LATIN.—Grammar to Prosody, (Harkness or Allen & Greenough); Latin Reader; one book of Cæsar's Commentaries.

Equivalents will be accepted for these requirements.

GENERAL REQUIREMENTS.

Students of either Sex will be admitted upon the same conditions, to equal standing, in every Department or Course of the College.

All desiring to enter an advanced class will be examined in the studies of the lower classes, or their equivalents, in the particular Course to be pursued.

Graduates of the Preparatory Department will be admitted to the corresponding Course of the College without further examination.

Applicants are expected to be content to enter only classes from which, in the judgment of the Faculty, they may derive the most good.

If applicants should be in advance in a portion of their studies and behind in another part, opportunity will be granted to faithful students of making up, by private study, whatever they may want to secure full standing in their class.

Arrangements can be made by the student for private instruction.

Testimonials of good moral character must be presented by all applicants.

One coming from another institution must furnish a certificate of honorable dismissal therefrom.

All students will be required to speak, and write compositions every term. Juniors and Seniors must write and deliver orations.

EXAMINATIONS.

In all classes, examinations will be held at the end of each term, upon all the studies of that period. Each Professor may hold an examination in his own department whenever he may see fit.

No student, who has absented himself from an examination, will be permitted to continue in his class without making satisfactory arrangements with the Professor in charge.

PREPARATORY DEPARTMENT.

GENERAL INFORMATION.

In connection with the College proper, the Trustees have established a Preparatory School, in which students are fitted for the college classes and for teaching. There are three courses of study, of three years each, corresponding with the courses of the College.

Special attention is given to Normal work in this department.

Students in lower grades of schools, who are designing to take a College Course, are advised to spend the last preparatory year in this department, on account of the better adjustment of the studies to the regular college work.

HIGH SCHOOL STUDENTS.

Students in our High Schools designing a College Course should give special attention to Latin, if they would pass from the High School to the Freshman Class in College. Mental and Moral Philosophy, which are included in the senior studies of many of our High Schools, should be omitted as preparatory studies, and taken in the Senior year of college work.

EXAMINATIONS.

Students will be examined and assigned to classes for which they are qualified.

At the end of each term all classes will be examined.

No student failing to appear at an examination will be permitted to enter his class until the examination is made good to the satisfaction of the Professor in charge.

All students in this department are required to declaim, and write essays.
