- During the peak instructional hours outlined above, 3-credit courses must run on the standard MWF (3x50 minute) or TTh (2x75 minute) pattern. Colleges should strive to offer 3-credit courses evenly between MWF and TTh. Exceptions: labs, studio classes, clinicals, practica.
- During peak instructional hours, a four-day schedule is strongly recommended for 4-credit courses at the 100- and 200-level. These courses should run MTWF or MWThF. After 2:00 pm, courses may also be offered on a MTWTh schedule.
- After 2:00 pm, courses should run on the standard pattern, but there is more room for flexibility. The standard pattern will include two MW 2x75 minute patterns: 2:00-3:15 and 3:30-4:45.
- Long-form classes (e.g., labs and studios) must begin on standard start times *or* end on standard end times indicated on the 3-CREDIT (15-week +FE) grid.
- For courses offered in the 5-week or 7-week + FE term, follow the appropriate grid. The use of a three-, four- or five-day schedule is strongly recommended for courses at the 100- and 200-level.
- For 4-credit courses with only one section offered, academic units are encouraged to avoid the MTWF or MWThF, 8:35 – 9:25am and 11:50 – 12:40pm meeting patterns to maximize options available to students on TTh during those times.
- Graduate courses offered in the evening may follow time patterns set by the college.

Courses that meet off-campus or have external constraints (e.g., Distance Learning) do not have to follow the scheduling grid.
